

CATALOGUE 2026

BATHDELUXE

Simply your space

Welcome to our catalogue, where we invite you to explore the world of exquisite bathroom design through the eyes of our founder, Finn Hansen.

Finn's journey began over 30 years ago with a simple yet profound passion for creating beautiful, functional, and sustainable bathrooms. His dedication to Danish design principles and commitment to lifelong quality have been the driving forces behind our brand.

From the very beginning, Finn has worked closely with producers, forging strong partnerships to ensure that every product meets the highest standards of craftsmanship and sustainability. His meticulous attention to detail and unwavering pursuit of excellence have resulted in a collection that not only enhances the aesthetic appeal of your bathroom but also stands the test of time.

Join us as we celebrate Finn Hansen's legacy and his relentless pursuit of perfection in bathroom design. Each piece in our collection is a testament to his vision and passion, promising to bring elegance and durability to your home for years to come.

MATERIALS

Furniture

Real Solid Wood

Our Forest range is made of European certified solid Oak using FSC certified supply chain. The unique wood structures come to life when we oil and wax the surface to withstand the life in the bathroom.

Veneered MDF and Chipboard

For thin boards used in the back of the cabinets, we use sliced solid veneer on Chipboard and MDF.

Melamine

Is a fantastic material since many wood structures can come to life in an economical way, and also plain mat surfaces are very resistant to the environment in the bathroom.

MDF Lacquered

PU lacquered MDF gives the most exclusive look to any front. The material makes it possible to make any groove and any edge to give character to the furniture. We lacquer our fronts 6 times to give a sublime and prestigious look and feel.

Mirrors

Mirrors

Our copper free mirrors are 3 times more resistant to corrosion compared to traditional mirrors. This means that they are less likely to develop rust or black spots over time. Our LED mirrors use both warm and cold light with many different functions.

Countertops

Beton

Beton, or concrete, is for any designer or architect a popular material of choice to give an industrial or rough look to the bathroom. Our range in both countertops and washbasins are treated with water resistant glaze.

Quartz Stone

Quartz is a hard and non-porous material, making it resistant to scratches, stains, and moisture. Together with the many various stone surfaces quartz gives a more uniform color which is not wild as Nature can be. This makes quartz an ideal choice for bathrooms, where surfaces are exposed to water, cosmetics.

Granite and Marble

Is 100 % natural stone as seen in nature. The stone is simply cut and polished and stands as the nature produced it.

Compact Melamine

Is a very durable and strong surface without edges and full board material. We use silk touch mat surface which fits beautifully to our prestige furniture.

Bathtubs

Sanitary Acrylic

Our bathtubs are made from vacuum-formed acrylic sheets that are reinforced with fiberglass. This combination provides several benefits, including durability, lightweight construction, and ease of installation. The high gloss surface imitates the ceramic material in the bathroom and is very easy to clean and maintain.

Wash Basins

Ceramics

Our white glossy and mat black glazed ceramic is the most widely used material in the bathroom the last hundreds of years. Since the clay is burned in an oven, the washbasin dimensions and surfaces changes a little and the washbasin comes to life since edges are rounded and you can feel the material is full of life.

Solid Surface

Is a composite basin that can take any form and exact size which makes seamless and minimalistic design possible. Sharp edges and exact dimensions, gives a modern design look to the basin and mat surface in line with the furniture design.

Stainless Steel

Our design range in Stainless steel, in many different colors, gives a thin sharp edge not possible to obtain with ceramics or solid surface. This choice is a design basin, where there is more maintenance to keep the basin free from stains.

Mixers

Brass

molded mixers is a highly durable and solid material that can take any shape and form. It is known for its strength and ability to withstand daily wear and tear. Brass is also anti bacterial & hygienic and the zero lead content making the water safe and clean to drink.

Stainless Steel

mixers are as well highly durable, but there are limitations to the design and form. The material is very cost effective and the hygienic properties makes the water safe and clean to drink.

Shower Tube Sets

We use both Brass and Stainless Steel for our shower tube sets and have top showers both in Stainless Steel and ABS plastic, giving different design abilities. Our multifunctional hand showers have different functions as mist, spray and massage functions. Our full body brass mixers have cold touch making it a safe choice for the bathroom since you cannot burn yourself on the mixer.

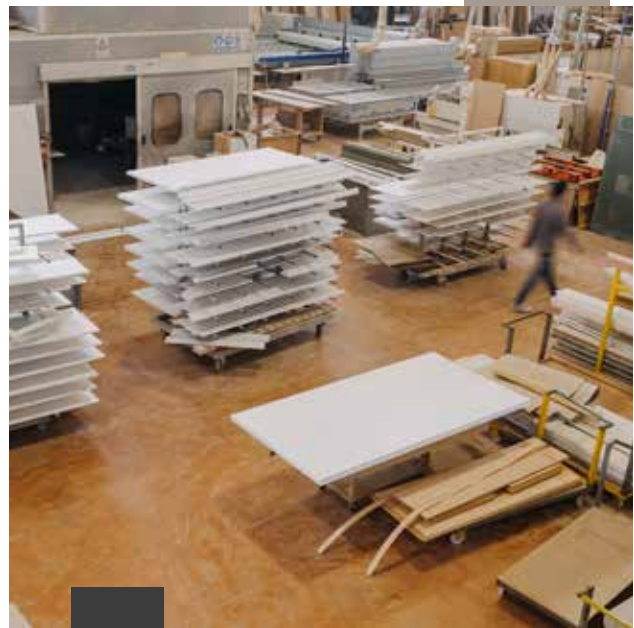

SUSTAINABILITY

To integrate Environmental, Social, and Governance (ESG) principles into bathroom furniture manufacturing has for Bath Deluxe become increasingly important for sustainability. Some of the key aspects:

- **Environmental Impact:** As a Manufacturers we are focusing on reducing their carbon footprint by using sustainable materials, improving energy efficiency, and minimizing waste. As an example, we are using recycled or sustainably sourced wood and eco-friendly finishes to significantly reduce environmental impact.
- **Social Responsibility:** For Bath Deluxe this includes ensuring fair labour practices, promoting diversity and inclusion, and contributing to community development. Focusing on the health and safety of our employees and customers by adhering to strict safety standards and providing ergonomic designs in all our workplaces.
- **Governance:** Strong governance practices involve transparent reporting, ethical business practices, and compliance with regulations.

For Bath Deluxe customers this has resulted in several benefits:

- **Healthier Products:** Bath Deluxe use non-toxic, eco-friendly materials, which lead to healthier indoor environments. This reduces exposure to harmful chemicals and improves overall well-being.
- **Sustainability:** Products made from sustainable materials and processes help reduce environmental impact. Bath Deluxe customers can feel good about their purchases knowing they are supporting eco-friendly practices.
- **Quality and Durability:** In Bath Deluxe we emphasize high-quality, durable products. This means our customers get furniture that lasts longer, reducing the need for frequent replacements and saving money in the long run.

- **Ethical Practices:** Bath Deluxe adheres to fair labour practices and ethical sourcing. We treat our workers well and operate responsibly.
- **Innovation:** Bath Deluxe's commitment to ESG support us to be upfront with innovation, to offer cutting-edge designs and to use technologies that improve functionality and aesthetics.
- **Transparency:** Bath Deluxe tend to be more transparent about our practices, providing consumers with detailed information about the origins and impacts of our products. This transparency can build trust and confidence in the brand.

In overall, Bath Deluxe ESG initiatives lead to better products, a healthier environment, and a more ethical marketplace.

MIRRORS AND HANDLES

PRESTIGE

EXCLUSIVE

BASIC

● Mirror

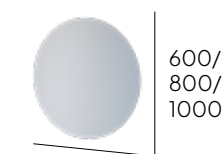

Beyond practicality, mirrors can enhance the overall ambiance of a bathroom, reflecting light and making the space appear larger.

● Handles

Handles for bathroom cabinets are crucial for both functionality and style. Handles can enhance the overall aesthetic of the bathroom while providing a comfortable grip for easy access to storage. Cabinet handles play a significant role in the usability and visual appeal of bathroom cabinetry.

SHOWER ENCLOSURES

Do you have a small bathroom with limited space? And do you want to be able to shower without getting the whole bathroom wet? Then a shower enclosure is the solution.

New shower enclosure?

We will help you to find the right solution

A shower is always nice, but in some bathrooms there is no room for a large walled-in shower area, a large shower wall or a separate shower area. In such bathrooms, a flexible shower corner can be the solution. Here you can take a shower without spraying the entire bathroom with water. The doors have magnets that ensure that the doors close properly.

With our combination of quality, style and functionality, we're sure you'll find the perfect solution for your bathroom. Whether you're renovating from scratch or just looking to update an existing bathroom, we have the shower doors you need to create a beautiful and functional space.

Nano
Surface

Vänern shower enclosure is functional and aesthetic while being made of the best quality. **Vänern** is made of 6 mm NANO-treated tempered safety glass for easy cleaning. The shower enclosure is suitable for direct mounting against the tiled floor for a simple, elegant look without the use of a shower tray.

The doors can open inwards and outwards, freeing up space in the room when needed. **Vänern** includes an aluminium profile with magnetic closure, which ensures that the glass closes tightly. Handles in the same colour as the profiles are included to create a simple and minimalist look. The profiles lift when the doors are opened, so that water is not pushed out into the room.

Warranty rules for Bath Deluxe products

BASIC

5 years warranty consisting of 3 years full warranty plus 2 years of extended limited warranty*

EXCLUSIVE

10 years warranty consisting of 3 years full warranty plus 7 years of extended limited warranty*

PRESTIGE

25 years warranty consisting of 3 years full warranty plus 22 years of extended limited warranty*

Warranty conditions

The warranty only applies to production and material defects if the product is installed and used according to the instructions of the manufacturer. Damage to the product caused by wrong installation, handling, cleaning or usage is not covered by the warranty. Products that was faulty at delivery must not be installed, and the warranty is lost if installed.

The warranty is valid from the date of purchase and a copy of the purchase receipt must be provided for the warranty to apply. The customer must claim the product within 60 days of the fault was discovered to avoid unnecessary further damage to the product. If a fault has not been reported in due time and it has caused further damage to the product, the customer loses the right to claim the product.

Products directly connected to electricity- and water supply must always be installed by certified professionals in order to maintain the warranty.

Products purchased as second-hand or display models with a significant discount are exempted from the extended limited warranty.

Warranty exceptions

Bathroom furniture that has been exposed to direct contact with running water from a shower or bathtub is not covered by the warranty as stated in the instruction manual.

The warranty does not apply to freezing damage or if damage and defects are caused due to impurities or limescale in the water. The warranty also does not cover damage caused by lightning strikes or abnormal variations in the voltage of the power supply.

The warranty does not cover normal wear and tear, or scratches, marks or damage caused by impact or accident.

Transport damages are not covered by the warranty. If the transport has been arranged by Bath Deluxe, the right to claim damages will be handled according to the valid NSAB transport rules and legislation at the time of claim. Note that visible transport damage must be reported immediately, and claims related to broken products that can be referred directly to a transport claim, can be refused in case the transport damages are not claimed in due time.

Shower doors that explode during handling and installation are not covered by the warranty. It only explodes if it is handled incorrectly, e.g. by putting the corner of the shower door directly down on a hard surface. Also mirrors with broken corners are not covered by a warranty, unless it can be proven that it was caused during transportation arranged by Bath Deluxe. In that case proof of the damaged packaging is needed to proceed with the claim.

Full warranty period

During the 3-year full warranty period, Bath Deluxe aftersales service organization will decide if the product will be repaired or replaced with an identical or comparable product. In some cases, a problem can be solved with a simple spare part which will be sent free of charge. If it is necessary, Bath Deluxe will pay for the labor cost of repairing the product, provided that this cost does not exceed the cost of replacing the product.

If Bath Deluxe chooses to repair the product, the product must be installed according to the manual and in a way that it is possible to perform the necessary repair. If a product is installed in a way that repair is not possible, Bath Deluxe remains the right to refuse the repair and to pass on eventual labor and travel cost to the customer.

The cost of repairing a product must be approved by Bath Deluxe and will not be reimbursed if it has not been approved by Bath Deluxe.

If Bath Deluxe decides to replace the product, but the product is no longer sold by Bath Deluxe, it will be replaced with a suitable and comparable product selected by Bath Deluxe.

***Extended limited warranty**

During the extended limited warranty period, Bath Deluxe will provide the spare parts free of charge to repair the product but will not cover any labor cost or other sorts of compensation.

Movable parts or frequently used electrical components like electrical transformers, LED-drivers, LED lights, rubber strips and hinges are not covered during the extended limited warranty period. Those parts can be purchased from Bath Deluxe if needed.

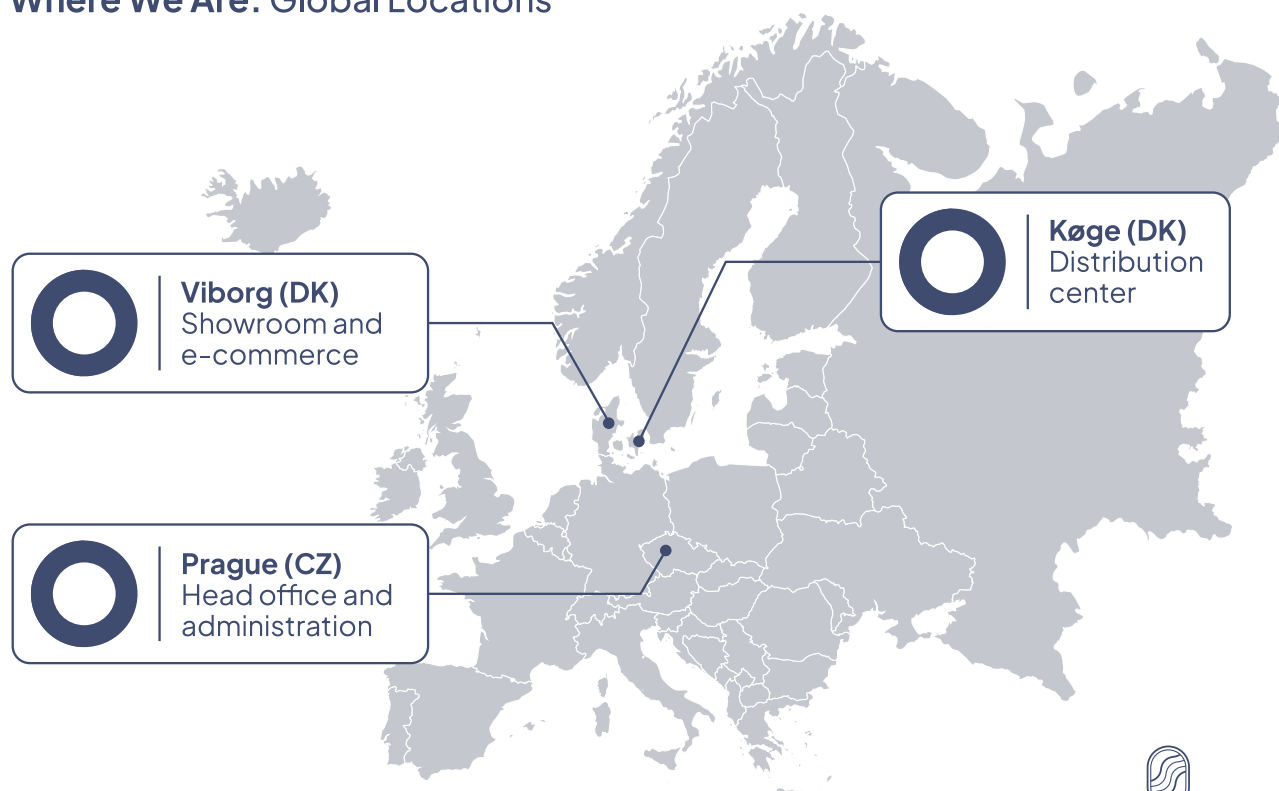

Installation- and instruction manuals

It is important that the customer reads the manuals carefully. The instructions must be followed in order to maintain the warranty. The installation- and instruction manual can be found inside the product packaging or on Bath Deluxe website. Products directly connected to electricity- and water supply must always be installed by certified professionals in order to maintain the warranty.

How to get help

Contact the dealer where You bought the product or find contact details for Bath Deluxe aftersales service department on Bath Deluxe website. Remember your purchase receipt in case you want to claim a product.
